Continuation Sheet (PTOL-303) 09/975,127

Application No.

Continuation of 2. NOTE: Regarding the Applicant's additional limitation added to Claims 1-3, 9, 10, 12, 32, and 44, Culp discloses this feature. Culp discloses a generator console that instructs the hand piece to operate in different modes, based on a handicap limit and a disable limit for criteria such as temperature of the end-effector, as explained in the previous Office Actions. Requiring this limit to be applied to "all" of the end effectors connected to the hand piece does not distinguish the Applicant's invention from Culp Culp discloses an ultrasonic scalpel, which instructs either some or all of the end-effectors to run according to the additional limitation of the current Amendment..
